Hi Ann,
Hope your summer is going well too. Shannon did contact me and I passed her inquiry on to Lon Kissinger, so I assume they've talked by now. Lon is our expert when it comes to fish consumption survey work. For future reference, Lon's email is kissinger.lon@epa.gov and his phone number is 206-553-2115.

Talk to you soon. Thanks,

Matthew Szelag

Subject: FCR surveys

Hi Matt,
Hope you got some time off this summer. I just returned from 10 days away and i'm trying to catch up. Shannon Kirby from the Skokomish Tribe emailed while I was away and asked about the costs of fish consumption surveys. I gave her your email. If you were able to help her, you can ignore this message. If she didn't contact you, then I would like to have Lon Kessinger's email--I'm assuming that he would be another good contact for her?

Thanks. I'm sure you are aware of Ecology's change in the FCR process and tribes have already started talking to EPA about it. We'll be in touch.

Ann
